NJ State League of Municipalities Conference
November 19, 2019, 2:00p.m., Room 401, Atlantic City Convention Center**

New Jersey's Visual Litter Survey: Riding the Waves to a Clean New Jersey

Community organizations, business, individuals, and Clean Communities coordinators during 2019 have been conducting visual litter surveys of New Jersey's beaches, rivers, lakes and streams, streets leading to waterways, and/or storm drains. Our purpose has been to identify types and amounts of litter, develop solutions to the litter problems, and ultimately reduce litter. Learn from experts how the visual litter survey can lead to a cleaner New Jersey.

Join us to hear our panel of experts!
