

Do You Have Unexpended Clean Communities Funds?

Here's How We Can Work Together to Fight Litter in Your City.

Be a part of the New Jersey Clean Communities Local Government Outreach Partnership

The \$15,000 partnership includes:

- The NJCCC would create, print and deliver 5,000 customized, environmentally-friendly reusable bags for your community featuring your logo and images of landmark locations in the city. NJCCC's design team would work with the city to create a 14 by 16 bag that is special and unique, which you can then distribute at community events throughout the year to promote your litter-free message. NJCCC has been producing these limited-edition bags since 2022 and are well-known statewide.
- The city would be a sponsor at NJCCC's annual statewide awards event, held each fall. The city would receive a reserved table of up to six seats, as well as a municipal logo on posterboard and advertisement in the event program, highlighting the city is part of this partnership. The city would also be recognized at the VIP Mayor's Event, held during the event.
- Development of two litter-related social media REELS co-branded by the City and NJCCC, highlighting local litter-free initiatives.
- A key speaking role for an elected official at the NJCCC's annual grant award announcement in May.
